

Public Notice of Applications for 401 Certifications and/or Waste Discharge Requirements Authorizing Discharges of Dredge or Fill to waters of the U.S.

February 2006

Last updated February 10, 2006

Project Name:	Alabama Street Bridge
File Number	362006-02
Applicant:	San Bernardino County Public Works Department
Agent:	None
Receiving Water:	City Creek
Project Description	
Emergency repair work of grouted rock slope protection along Alabama Street at its crossing of City Creek. The proposed work, along with remedial roadway repairs will restore Alabama Street to full service. Due to the emergency circumstances, the statutory 21-day comment period will not be fulfilled for this project.

Project Name:	Quincy Channel
File Number	332004-37
Applicant:	Pinnacle Communities
Agent:	Tom Dodson & Associates
Receiving Water:	Quincy Channel
Project Description	
Waste discharge requirements will be issued rescinding Order No. R8-2005-0087 and authorizing Pinnacle Communities to hydro-modify Quincy Channel, from Cottonwood Avenue to a point approximately 2,500 north, in the City of Moreno Valley. The hydro-modification will proceed as described in the previous Order except with a modification that will include a maintained 6-foot strip along the toe of the proposed concrete-panel banks. These maintained areas are deemed necessary by Riverside County Flood Control to facilitate inspection and maintenance of the banks. The proposed Order will also change the discharger from Highpointe Communities to Pinnacle Communities and transfer the Clean Water Act Section 401 Certification accordingly.
